

## **Task 3: Project Requirements**

Help contribute for a greater cause through SavePalestine. We enable you to directly aid those in need through an easy to use and interactable website. You can now take action and help the innocent human beings that are being killed in Palestine.

### **1. Features and Functionalities:**

- **Easy to use:** Our website is easy to use and user-friendly, users can easily access the pages they need to and perform their tasks.
- **Fundraising Goals:** We have goals setup to track how much money has been raised and what actions can now be taken to aid the people of Palestine
- **Educational Resources:** Information about the Israel-Palestine conflict is provided on the website so that those that are uninformed can learn of it
- **Security Measures:** Transactions through our websites will be secure and the users can be ensured that their financial information is kept safe.
- **User Profiles:** Users can sign up on our website and track their contribution and information, their profile will store all their information.
- **Support Services:** In the case of any issues, users be given support until their issue is completely resolved
- **Social Media:** Users can further learn of our website and our goal through other social media platforms as well.

### **Technical Constraints:**

**Security:** Several security measures will have to be taken to protect data privacy.

**Scalability:** The website will have to be designed with a large number of users in mind

**Compatibility:** The website must be compatible on different platforms and devices.

**Payment Gateway Integration:** A secure payment gateway must be integrated that supports various transaction methods.

## **Task 4: User Stories**

An example of a user's story is given below:

1. **User Registration:** As a new user I will first register an account on SavePalestine in order to store my information and keep track of my contribution
2. **User Login:** After registration I will login to my newly created account to perform further tasks
3. **Learning about the sites purpose:** I will access the about page and learn of what the website's goal is and further educate myself upon the Israel-Palestine conflict.
4. **Viewing the websites socials:** Furthermore, I will view the progress and updates on what the website has achieved by going to the given social media platforms.
5. **Donation:** Once I have made my decision, I will donate using the donate page to support a greater cause and help save the innocent lives in Palestine and aid those who have suffered.
